

BIFETACEL PLUS EQUINES

Parasiticide paste for equines

Formula:

Each 100 g contains:

Closantel..... 16.67 g

Fenbendazole..... 8.34 g

Excipients q.s.ad..... 100 g

Indications:

Broad spectrum internal parasiticide for horses.

Due to the type of association of active ingredients, Bifetacel Plus Equines can be administered to pregnant mares, animals in training, etc., without restriction of age or sex.

Withdrawal period:

Do not treat animals whose meat is intended for human consumption.

Dosage:

The syringe containing 31 g of the product is enough to dose a horse of 500 kg/b.w., (equivalent to 10 mg Closantel/kg b.w. and 5 mg Fenbendazole/kg b.w.).
