

FIRST GUARD ROTA-PASTE CALVES is a nutritional paste complementary feedingstuff containing high levels of active egg proteins, pre-biotics (Microfos), Nucleotides, Vitamins, chelated trace elements on a high energy specialised fatty acids for rearing calves and other neonate animals for the first critical days of life.

ADVANTAGES:

- Active Egg proteins to manage intestinal disturbances caused by Rotaviruses, Corona viruses, E Coli (K99, K88 & K787P, Salmonella *Types: S. Heidelberg, S. Dublin, S. Thyphimurium. S. Enteritidis*).
- Nucleotides to help with the immune system, gut health, gut morphology and aids Crypt length, height, depth.
- Contains oligosaccharides (Microfos) enhances the natural microflora and conditions gut health.
- Vitamins in a unique high-energy carrier that aids assimilation and supports the animal's nutritional balance during challenging situations.
- Organically chelated Trace minerals to enhance metabolism and body functions.
- Helps the animal manage environmental and infectious challenges.
- Scientifically formulated paste Supplement for boosting energy levels with Specialized Fatty Acids from Natural sources helps regulate microbial populations, helps gut health and aids immunomodulation.
- Assist in the management of intestinal disturbances caused by the environment.
- To help restore intestinal integrity and aid recovery post disease challenge.
- Specially formulated for maximum bioavailability and utilization easy-to-use formulation.
- Use on animals where health history of the animal is unknown.

APPLICATION:

Orally administer the contents of onto the back of the animal's tongue within 12 hours of birth.

Calves: Use 30g directly into the mouth, additional 30g may be fed if required. Ensure fresh cool drinking water is always available.

NB: THIS IS NOT A VETERINARY MEDICINAL PRODUCT. NO withdrawal period required

If in doubt discontinue use and consult your representative.

COMPOSITION (per kilogram):

Vitamin A	100.000iu	Protein	22 % w/w
Vitamin D3:	60,000iu	Dietary Fibre	0.2 %w/w
Vitamin E (as-tocopherol acetate)	1,600mg	Ash	5.47 %w/w
Vitamin B12	135,000mcg	Fat	61.9 %w/w
Copper*	280mg	Moisture	1.0 % w/w
Iron*	100mg	Pre-Biotics (Microfos)	3.33 %w/w
Manganese*	60mg	Nucleotides	3.4 % w/w
Selenium	6mg	High-energy vegetable oil & Polysaccharide carriers, with 635KJ/30g (150Kcal) energy.	
Zinc*	560mg		
		*(MAAC Metal amino acid Chelate)	

SHELF LIFE:

36 months in original container.

PACK SIZE:

30g or 60g syringe

PRECAUTIONS:

- Store in a cool dry place between 5-25°C out of direct sunlight.
- Keep out of reach of children.
- For animal oral use only.
- Ensure fresh cool drinking water is always available.
- Always use complete contents of syringe.
- Do not exceed recommendations. If in doubt consult your distributor.
- Use carefully to avoid the windpipe.
- This is not a Veterinary Medicine which is subject to authorisation.
