

**SCOUR-EX** is a scientifically formulated replenishing, dietetic feeding stuff. Designed to assist in the management of water, electrolytes, essential minerals and energy during nutritional stress in cattle, pigs, horses, sheep and other farm animals.

Scour-Ex also contains Natural Fibres, Pre-Biotics, Nucleotides, easily absorbed Glucose, Complex Carbohydrates, 1, 2 – Propandiol and easily absorbed Fatty Acids.

- **ENERGY:** 4 types of energy giving ingredients to help replenish critical energy reserves
- **PREBIOTICS:** Which have been shown to enhance the natural gut micro flora profile
- **ELECTROLYTES:** Promotes the absorption of Electrolytes and Glucose compounds thus aiding fluid balance
- **NATURAL FIBRES:** Help to retain more fluids in the body/gut and “line” the gut from further damage
- **NUCLEOTIDES:** Encourage natural immunity, function, villi condition and mucosal integrity for more efficient nutrient absorption
- **Vitamins A & E:** Enhances immune function
- **Zinc and Copper:** Replenishes minerals lost
- **No need to withdraw milk from calf, pig or foal**
- **Assists in reducing frequency and severity of digestive stress conditions**
- **Nutritional aid to help reduce the duration, frequency and severity of nutritional digestive stress conditions**

## APPLICATION

Immediately **BEFORE** feeding, dilute 50 g (1 sachet) of SCOUR-EX into 1 L of clean warm water or milk and feed to the animal via a stomach tube, bottle or teat and if required, once again later in the day. DO NOT FEED MORE THAN TWO DOSES PER ANIMAL. If condition persists consult your veterinary surgeon.

- **ADULT CATTLE AND HORSES:** 50g immediately and again once later in the day, if required.
- **CALVES AND FOALS:** 50 g immediately and again once later in the day if required.
- **ADULT PIGS:** 50 g immediately and again once later in the day if required.
- **PIGLETS:** 10 g immediately and again once later in the day if required.
- **SHEEP/GOATS:** 50 g immediately and again once later in the day if required.
- **LAMBS/KIDS:** 10 g immediately and again once later in the day if required.

Do not use water above 40-50°C. NO NEED TO WITHDRAW MILK during the use of SCOUR-EX.

This is not a veterinary medicinal product. NO WITHDRAWAL PERIOD FOR MILK OR MEAT.
